Returns & Refunds Policy

Eligibility, return requests, inspection, and refund timing

Demo policy: These are sample terms for testing the application, not legal advice or a real retailer's terms.

Return window

Customers may request a return of an eligible product within 30 calendar days of purchase. The product must be returned in its original condition.

Condition requirements

Items should be returned in original condition with included accessories, manuals, and packaging where available. Damage caused by misuse, accident, or unauthorised modification may result in rejection after inspection.

How to request a return

- Contact support with the order number and product name.
- Explain the reason and whether the item is unused, opened, or damaged.
- Wait for return instructions before sending the item.
- Keep proof of shipment until the return is reviewed.

Refund timing

After receipt and inspection, the store team reviews eligibility. Approved refunds are initiated within 5 to 7 business days. The time for funds to appear depends on the original payment provider and bank.

Exchanges and damaged items

The demo policy does not define automatic exchanges. For damaged, defective, or incorrect items, contact support with the order number, description, and photos where relevant.

Assistant limitations

- The assistant cannot inspect returned products, approve a refund, or confirm an individual purchase date.
- Never guarantee a refund before the store team completes its review.
